

NEKO LIGHTING AG

**ABOUT
NEKO**

1

Sven Speissegger

Founder of NEKO

"I believe everyone should have the chance to enjoy beautiful, well-designed lighting at a fair and affordable price."

Founded in **2013** by Mr. Sven Speissegger, NEKO set out with a clear vision: to deliver high-quality, efficient LED lighting solutions with an exceptional price-to-performance ratio. Under Mr. Speissegger's leadership, NEKO has rapidly evolved into a thriving international lighting company, now serving customers in **over 120 countries** with innovative architectural solutions for both indoor and outdoor applications. Over the past decade, NEKO has grown into a global team of **more than 450 employees**, with its own production facility in Asia and dedicated Design, Sales, and Marketing departments in Europe. Mr. Speissegger's commitment to innovation and quality continues to drive NEKO's success and industry leadership.

PHILOSOPHY

At NEKO Lighting, 'THINK DESIGN' embodies our commitment to combining European aesthetics with the efficiency of Asian craftsmanship.

GLOBAL REACH

Worldwide Reach, Seamless Distribution

NEKO has built a powerful global network with over **170 distributors** and **14 offices** — including our **Swiss headquarters**, a **combined manufacturing and logistics hub** in China, and a **dedicated warehouse** in Europe.

NEKO ensures efficient logistics with strategically located **warehouses in Europe and Asia**. Our presence in key markets across the globe ensures that NEKO products are always within reach. It's this combination of global accessibility and precise execution that allows us to light up spaces with style, wherever you are.

Research & Development

NEKO's team of **over 60 global professionals** is at the forefront of innovation, combining diverse expertise to **design and develop cutting-edge lighting solutions**. From initial concept to final production, our team is deeply involved in every stage of the product lifecycle, ensuring creativity, precision, and functionality in every design. This holistic approach allows us to consistently deliver advanced lighting solutions that meet the needs of customers worldwide.

LABORATORY

NEKO operates its own state-of-the-art testing center, equipped with **over 150 advanced testing instruments**. Every product undergoes rigorous and comprehensive testing to ensure it meets the highest industry standards and delivers reliable performance. By combining precision testing with meticulous quality control, we guarantee that our lighting solutions not only meet but exceed customer expectations in functionality and durability.

NEKO owns and operates its **independent factory**, spanning an impressive **48,000m²**. The facility is equipped with advanced **CNC machines**, a **surface treatment processing center**, a dedicated **manufacturing center**, an **in-house testing laboratory**, and a comprehensive **warehousing and logistics hub**. This integrated system enables a seamless workflow from design and production to rigorous quality inspection and efficient delivery. Our strict processes ensure that every product meets the highest standards, providing customers with reliable, high-quality lighting solutions they can trust.

120+ Patents

- 7 Invention patent
- 63 Design patent
- 47 Utility model patent
- 5 Registered Community design, RCD

Awards

- Red dot design award
- Red dot best of best design award
- iF Design award
- G-MARK design award (GOOD design)
- IDEA design award

NEKO takes pride in its commitment to innovation and design excellence, holding **over 120 patents** that reflect our dedication to advancing lighting technology. Our products have also been recognized with numerous **international design awards**, showcasing their exceptional quality, functionality, and aesthetic appeal on a global stage.

ISO 9001:2015

Standards to Quality Management System.

CE Marking

Manufacturing in accordance with the directives of the European Community.

Café in Hotel Mouco, Portugal

A modern office interior featuring a large, tufted orange leather sofa in the foreground. The room has a dark wood-paneled ceiling with several large, circular pendant lights. Large glass windows and partitions provide a view of a city skyline. In the background, there are office desks with chairs and another seating area with more orange leather furniture. The floor is a polished, reflective material.

Office

Deribit office, Panama

Hospitality

Mandarin Oriental Hotel, Swiss

A modern, open-plan living and dining area. In the foreground, a long, light-colored wooden dining table is set with a bowl and some vases. Several white chairs with black legs are around the table. A large, curved, illuminated pendant light hangs over the dining area. To the right, a long white kitchen island with a modern faucet and a built-in sink is visible. Behind the island, a wooden bar stool with a woven seat is positioned. In the background, a light-colored sofa faces a wall with a large television. The room has a high ceiling with recessed lighting and a large window on the left side. The floor is made of light-colored wood.
